INTRODUCTION

The government has introduced the Construction Industry Transformation Programme (CITP) with the aim to transform the construction industry through 4 Strategic Thrusts; Quality, Safety and Professionalism, Environmental Sustainability, Productivity and Internationalisation. One of the initiatives that has been identified to realise and uphold the thrusts is through enhancing the integrity of the key players and introducing systematic governance of anti-bribery activities in the operations by referencing to international standards. The development of MS ISO 37001 – Anti-Bribery Management Systems (ABMS) in 2016 by Department of Standards Malaysia (Standards Malaysia) is in line with this initiative. This seminar is organised by the Construction Industry Development Board (CIDB) and the Department of Standards Malaysia (Standards Malaysia) in collaboration with Malaysian Anti-Corruption Commission (MACC) in Kuala Lumpur, Johor Bahru, Penang and Shah Alam.

OBJECTIVES

- To promote and create awareness of MS ISO 37001 to the construction industry players
- Provides platform for information sharing on the use of the MS ISO 37001 and its way forward

OUTCOMES

- Systematic governance on anti-bribery in the construction industries based on international standards.
